- ✓ I eager to learn new things, I can easily learn and understand new technical and non-technical concepts.
- ✓ I don't get discouraged when something doesn't work out, but I look for solutions.

PROJECT DETAILS

PROJECT NAME: AI CHATBOT USING PYTHON

Jan 2022 to Apr 2022

Team Member

Objectives

Chatbots help organizations increase operational efficiency. Reduce costs while providing convenience. Adding services to both internal and external customers. They enable businesses to quickly answer a variety of client issues/enquiries while decreasing the requirement for human involvement. Chatbots are apps that corporations or other entities employ to conduct an automated dialogue between a human and an artificial intelligence. These interactions could take place over text or over the phone. While interacting with humans from all over the world, chatbots must be able to understand and emulate human discourse.

Responsibilities

- Analyze the requirements and finalize the road-map of project/task
- Collaborate with teams and other developers to design, develop, test, deploy, and maintain chatbot
- Refactor or reengineer chatbot applications as per requirements
- Conduct Chatbot demo/training and other activities to HOD & Students
- Manage data coming from chatbot conversations and analyze them

PERSONAL DETAILS

Name: CIRIVELLA SIVASAI
